TOP 5 METHODS TO PROTECT YOUR PREMISES WITH EASE

brought to you by eClouds'

ZoomThru

SECURITY GUARDS

1

- » Monitors and ensures that unauthorized visitors cannot enter.
- » Patrols and stops potential crimes in real time.

- » Need to change periodically to avoid frauds.
- » Payment rise is mandatory each time.
- » Training new personnel.

BOOM BARRIER

2

- » Slower vehicle speed.
- » Controls entry and exit.

- » Entry only with Permissions - even for Members.
- » Traffic build up at busy times.

CAMERA

3

- » Monitors and records all the real time activities.
- » Provides valuable evidences for legal activities.

- » Not monitored always.
- » Does not index any activity.
- » Thus, difficult to pinpoint any activity.

VISITORS LOG

4

- » Logging all non members who enter the premises is an easy way to monitor suspicious activity.

- » Increases working personnel
- » Increases stationery
- » Thus, increasing cost.
